

# Erica Rucci

## REGISTERED NURSE

### Objective

As a school nurse at a title 1 private school in West Greenville, I am able to provide culturally sensitive care, and function as a liaison and advocate for services and community opportunities. In addition to serving as a school nurse, I also volunteer by serving on the health and wellness committee, organize health fairs, and provide ongoing training and support to the staff, faculty, and families. Providing education and preventative health nursing care is a big part of my nursing journey. As I transition to the role of nurse educator, I plan to utilize my background by providing community opportunities for student nurses and continuing to build academic partnerships in the community.
